

YMC 2006

Young Mathematicians Conference 2006

August 4th-6th at The Ohio State University.

2D FRACTAL TREES WITH THREE BRANCHES

Brianna M Tufts

Ithaca College, Ithaca, NY [Mentor: David Brown]

Abstract of Poster Prestation: My presentation will cover the construction of a 2D fractal tree with three branches and the properties of the tree. Conditions for self-contact, an investigation of tree height, and a characterization of the canopy are a few of the properties I will address.
